Introductions

- What's your name?
- What's your role and background?
- What are you looking to get out of this session?
- How do you intend to apply your learning here?
- Do you have any hobbies or interests you'd like to share?

Introduction to the Course

- Purpose
 - Objectives
- Process
 - Admin
 - Learning
 - Group and Individual Work
 - Courseware & Files
- Expectations
 - Applications

Starting Questionnaire

Q. What would you like to know?

Please update your diary (word document) as we go throughout the day, start by filling in initial questions; and include others in review at the end of modules.

At the end of the day we will have a roundtable to consider all the questions you have that are unanswered by the end of the day.

- Key Question
 - What would you like to know about these areas that we haven't covered?

What interests you in...

- data insight
- data ethics & governance
- artificial intelligence
- big data
- digital transformation
- programming and automation
- the cloud

Questions

- Consider data systems you presently work with:
 - Where do they succeed / fail?
 - Do they enable data insight?
 - what obstacles do you think your organization is facing in these areas?
 - What ethical issues arise in your data work?
 - What opportunities exist that are currently missed?
